

HST-Q80Z Metallographic Sample Cutting Machine

Application:

The HST-Q80Z metallographic sample manual cutting machine is suitable for cutting samples of various metal and non-metal materials in order to observe the metallographic and petrographic structures of the materials.

Features:

- This machine is equipped with a cooling system to take away the heat generated during cutting.
- The cutting machine uses a high-speed rotating thin-reinforced grinding wheel to cut the sample.
- The machine has the advantages of easy operation and easy maintenance, and is superior to similar domestic products.
- The cutting range and transmission power are also larger than similar domestic products, making it the best choice for sample cutting.

Parameters:

Model	HST-Q80Z
Maximum cutting diameter	φ100mm
Spindle speed	2800 r/min
Cutting power	3kw
Input voltage	Three-phase 380V、50HZ
Grinding wheel specifications	300*2*32mm
Dimensions	800*680*631mm
Packing Size	930*756*792mm
Net weight	135kg
Gross weight	153kg
Water tank size	470*370*300mm

Water tank packing size	540*460*460mm
Water tank net weight	15kg
Water tank gross weight	25kg

Packing List:

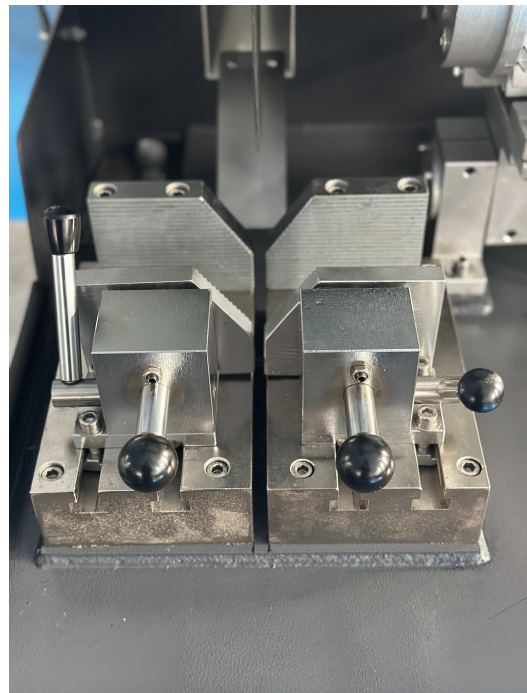

Manual sample cutting machine	HST-Q80Z	Set	1
Product Manual		Sheet	1
Product certification		Sheet	1
Packing List		Sheet	1
Wrench	30-32	Pc	1
Cutting disc	300mm	Pcs	2
Water inlet pipe		Pc	1
Water outlet pipe		Pc	1
Pipe clamp		Pcs	2
Water tank	Water pump is included	Set	1

Clamps (optional)

Standard Clamp

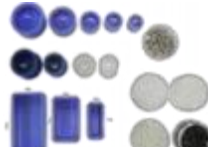

Quick Clamp

Metallographic consumables

Focus on metallographic equipment and consumables research and development of professional brand

			
Diamond cutting piece	Resin cutting sheet	Metallographic cutting Coolant	CBN cutting piece
			
CM-7 Cold mounting material	Cold/hot mosaic powder	Die for cold Mounting	Mounting material
			
Diamond Grinding Disk	Metallographic sandpaper	MEGULAR	Diamond paste
			
Polishing powder	Polishing lubricant coolant	Metallographic polishing cloth	Polishing liquid
