

WDE-W200 Computer Control Electronic Horizontal InsulatorsTensile Testing Machine

Picture for reference only

Application:

It is application, for a variety of long, short sample test, especially for large, long length sample. Common test types such as: Insulators, power fittings, ground wires, overhead insulated wires,, wire rope, ACSR/AW JOREE, chain, shackle ,cable, lifting belt, safety rope tensile test, lifting belt,power fittings etc tensile test.

Parameters:

Model	WDE-W200
Control Way	Constant stress uniform deformation constant displacement three closed loop control and program control dealing
Max. Load	200kN

Load accuracy	±0.5%; class 0.5 (accordance ASTM E4,ISO 7500-1)
Load range	0.4%~100%F·S
Load resolution	1/500000 of the full scale
Deformation measuring range	1%~100%F·S
Displacement rate adjustment range	0.005~300mm/min
Max tensile space	1.8 m
Testing speed	0.01~300mm/min adjustable
Tensile Grip	insulators special tensile grips
